Parts Listing

Rear Stabilizer Bar
1 Unit

Assembly Instructions

No Tools Needed.

Step 1: Stand Stool upright.

Step 2: Insert the ends of the Rear Stabilizer Bar into the corresponding holes in the pre-attached Stabilizer Bar and push in. It is natural for the bar to wiggle slightly. Under normal use, the bar will not detach.

Note: The Stools will not stack with the Rear Stabilizer Bar attached. It will need to be removed when stacking and reattached for use.

WEIGHT CAPACITY: 250 lbs.

CAUTION:
1. Do not use this stool as a step ladder.
2. Check the Rear Stabilizer Bar every 6 months to ensure that it is secure.
